

Lesson Two: The Inter-Relatedness of All

Organization by Marilee J. Bresciani, Ph.D.

Most Photos by Dan Megna

Inspiration from all my teachers including Neale Donald Walsch, *A Course in Miracles*, and Thich Nhat Hanh

The Inter-Relatedness of All

- * Who are you?
- * Who are you in relationship to another?
- * Who are you in relationship to an event?
- * Who are you in relationship to a circumstance?

There are so few situations where you
can function without connection to
another or to
another situation

Our thoughts,
words, and
actions are not
isolated.

Quantum Physics Teaches:

- * That we are made up of energy
- * Our thoughts have energy
- * Our words have energy
- * Our actions have energy
- * Energy flows and bounces and interacts

It is difficult to
trap and
isolate
energy...

If you

do...so

g

typically dies

Quantum Physics Teaches

- * Our energy is inter-connected
- * Thus, what we choose may influence the thoughts and/or actions of another
- * Others may choose how to think and act upon our choices
- * Some may not recognize that they have a choice as to how to perceive, think, and act on what we have just said, thought, or done.

The Hammer Analogy: A Story

Everything is
connected...

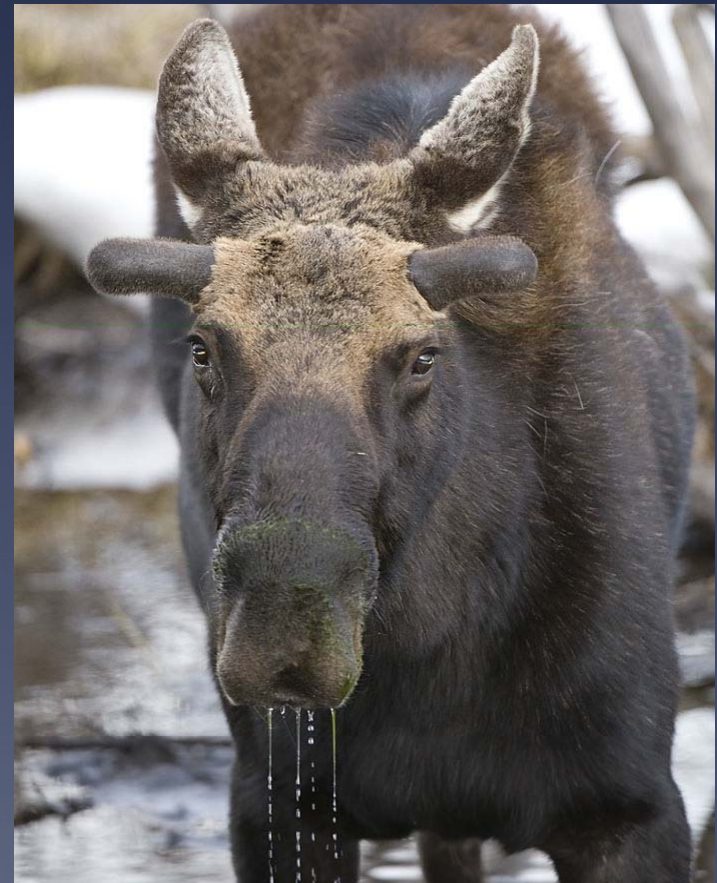

Thus, if you think there is

abundance...

you will see

abundance.

If you think there is “a
lack” ...
there will
be “a lack”.

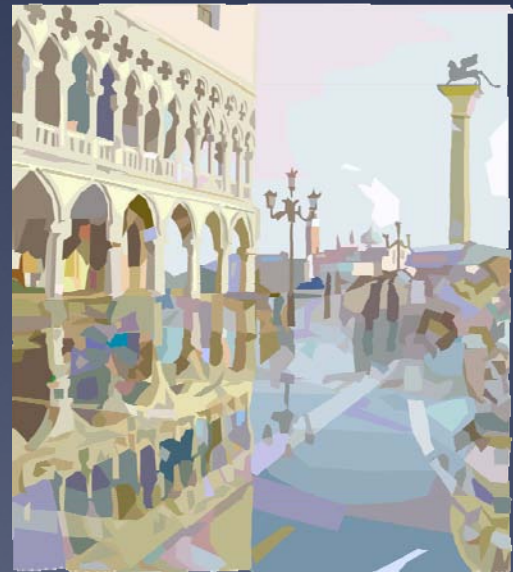

If you choose to create
an environment where
others thrive ...
they will thrive

If you choose to
create an
environment of
fear...

What you think, say,
and do is reflected
back to you...

So what do you think...

- * About our current economic "crisis"?
- * Do you think we have enough to educate all those who need education?
- * Do you think we have enough to do what we need to do for the good of the students?
- * Is it simply a matter of re-arranging our perception and our priorities?
- * What do you think?
